

For Immediate Release

up2speed computer solutions Announces Move of Corporate Headquarters to Central Denver

Move Motivated by Desire to Support Growing Customer Base

Denver, Colo (January 12, 2006) – **up2speed computer solutions**, a full-service IT consulting company, today announces its new Corporate Headquarters location in Central Denver at 1163 South Cherokee Street, Denver, CO 80223.

Since opening its doors in Lakewood, Colorado in 2003, **up2speed computer solutions** has provided next generation technology services to businesses throughout the Rocky Mountain Region. With its unprecedented growth in the last year, **up2speed computer solutions** sought a Central Denver location to further expand and support its growing customer base. "Our customers enjoy a high level of customer service" states Joshua Ross, **up2speed computer solutions'** President and Founder, "and we were happy to find a location in Central Denver that allows us to continue to provide excellent customer service while we expand our service offering and customer base."
